What our Alumni say...

"Joining the Virtual Internships program was a pivotal step in my career. It not only exposed me to the intricacies of full stack development and database management but also provided a platform where my potential was recognised. The culmination of this rich learning experience was being offered a permanent position as a Full Stack Developer/DB Manager by the host company, an opportunity that has immensely boosted my professional trajectory. I am deeply thankful to Virtual Internships for this incredible opportunity and for the unwavering support that has led to a significant turning point in my career."

Constantin Emilian Tivlica, Computer Science Intern with WOOBA, United Kingdom
